

The formation of the The Four Cs through the partnership between AMVC and Fulbridge provides the expertise, experience and capacity to support the establishment of two new and complementary schools on the same site at Paston Reserve. The first is the school is a 4-11 Primary School opening for Reception Pupils in September 2018 with two forms of entry and a proposed maximum size of 420 pupils (with additional nursery provision for up to 30 pupils in each year).

The second school will be 11-19 Secondary School, on the same site, opening in September 2019 for Year 7 pupils with eight forms of entry and a proposed maximum size of 1220 pupils (including an expected Sixth Form of 360 students based on 180 students in each of years 12 and 13).

At the heart of this commitment is the principle that AMVC and Fulbridge will enhance their proven track record of successfully teaching with innovative approaches to encourage learning in ways that are tailored to the pupil intakes of the new schools. Through this partnership, we aim to ensure that:

- The MAT will replicate the outstanding achievements of students currently taught at both AMVC and the Fulbridge Academy, guided by and tailored to the specific needs of the local community in and around Paston Reserve;
- Every child in the new Primary School will fulfill their potential, based on our proven track records of high standards and the tried and tested approaches that we have refined over a number of years to achieve these results (the same applies to our forthcoming Secondary application); and
- The Trust will fully realise the benefits of the partnership between AMVC and Fulbridge (for example, in supporting more effective transition between primary and secondary phases, as well as the wider benefits of being part of a MAT).
